Career Objective

Motivated Electronics and Telecommunication Engineer and aspiring Generative AI Engineer with hands-on experience in LLMs (GPT), LangChain, HuggingFace, and prompt engineering. Passionate about solving real-world problems using AI/ML and NLP technologies.

Work Experience

ML Intern, BrainyBeam	05/2025 – 06/2025
• Hands-on internship to explore Data Science and Machine Learning concepts through guided projects and practical learning modules	Pune
AI/ML Intern, Edunet Foundation (Code Unnati/SAP)	12/2024 – 04/2025
• Learn practical AI/ML concepts, tools, and project development by working on real-world applications.	Pune

Education

B.E. in E&TC Honours(AI/ML), Trinity Academy Of Engineering, Pune	2022 – 2026
HSC, Yeshwant Mahavidyalaya, Nanded	2020 – 2022
SSC, Mahatma Phule High School, Nanded	2018 – 2020

Skills

Generative AI & NLP

GPT, LLM, RAG, Prompt Engineering, python

Frameworks & Tools

LangChain, HuggingFace Transformers, OpenAI API, Django, Git, Jupyter, VS Code

Key Achievements

NTSE Stage-1 Maharashtra Qualifier	01/12/2021
3rd Rank - District Level Yoga Competition	
Best Drill Award - NCC Air Wing	01/12/2018

Projects

Encore Committee Dashboard	10/2024 – 05/2025
• Department dashboard to manage events and academic updates using Django	
Movie Recommendation System	07/2024 – 12/2024
• Built a content-based ML model to suggest personalized movie recommendations	
Smart Text Summarizer	
Automatically generate concise summaries of long articles or documents using Hugging Face's pre-trained BART models.
